

WOW – WILDLIFE ON WHEELS 2018

We bring the “WOW” factor to your students by introducing them to a range of Australian wildlife in your classroom!

This presentation is delivered by experienced Curumbin Wildlife Sanctuary Education Officers who will visit your centre with our animals.

Our presentations are Australian Curriculum linked and are presented by qualified and experienced educators. We can present on a range of topics linked to your current classroom curriculum focus. We will integrate animal components with our presentation to bring the curriculum to life in your classroom. Please specify your curriculum focus when booking.

Book now to offer your students an “up close” animal encounter with a conservation message linked to the Australian Curriculum.

Alternative presentations for childcare and vacation care groups, ESL groups, special events, and non-curriculum linked presentations are also available on request.

* **Important for NSW centres** – Please be aware that due to animal movement restrictions, NSW centres are restricted to reptile and invertebrate animals only. Additional import/export permit fees are included in NSW pricing.

Contact our Education Team on 07 5534 0895 / email education@cws.org.au for more information.
