

# Corporate Partnership Application:

## Supporting one of the busiest wildlife hospitals in the world.

Currumbin Wildlife Hospital Foundation was created to secure the future of Australia's wildlife. The Foundation directly funds Currumbin Wildlife Hospital and its vital work treating, rehabilitating and releasing sick, injured and orphaned native wildlife. The Hospital has grown to be one of the busiest wildlife hospitals in the world, admitting over 12,200 animals in 2019 – a service that is provided free of charge to the community.

The skilled and experienced veterinary team, supported by volunteers, prides itself on providing the highest level of veterinary care to all of their patients.

Currumbin Wildlife Hospital Foundation aims to raise \$1 million annually to continue the fight to save Australia's wildlife and find cures for devastating diseases such as koala chlamydia. The Foundation's mission is to save as many native Australian animal patients as possible to preserve our wildlife for future generations to enjoy.

Whilst the Qld State Government and the Gold Coast City Council provide some grant money each year we are largely self-funded for the treatment of the ever-growing number of wildlife cases.

The Wildlife Hospital is located within Currumbin Wildlife Sanctuary, and guests can visit the back deck of the Hospital to get an up-close and personal look at the vets in action through the floor to ceiling windows. See x-rays, ultrasounds and endoscopes, and experience veterinary procedures taking place from a surgeon's point of view by a camera mounted on the surgical light! For those eager to learn more about our wildlife and ways to help support them in the wild, the Currumbin Wildlife Hospital

Foundation Office, located at the entrance to the Wildlife Hospital, is open from 8.00am - 5.00pm seven days a week.

The Foundation staff are a small team of hardworking and passionate people who dedicate their time elevating the profile of the Foundation and raising as much financial assistance as possible. Their dedication to supporting the work of Currumbin Wildlife Hospital is essential to its mission of saving our wildlife.

Currumbin Wildlife Hospital Foundation is a registered Australian charity with an independent Board of Trustees responsible for the governance of the Foundation's activities. By donating to and supporting the Currumbin Wildlife Hospital Foundation you will be helping to save countless lives and your generosity will help us to ensure future generations have the opportunity to see our precious wildlife in the wild.

Please donate today and help us save Australia's wildlife. Donations and support are crucial to help the Currumbin Wildlife Hospital maintain the highest standard of care provided to its patients.

## WHY JOIN?

Currumbin Wildlife Hospital Foundation supports and funds Currumbin Wildlife Hospital, and its vital work of treating, rehabilitating and releasing sick, injured and orphaned native wildlife. The Hospital has grown to be one of the busiest wildlife hospitals in the world, admitting over 12,200 animals a year – a service that is provided free of charge to the community.

Currumbin Wildlife Hospital survives on the generosity of sponsors and donors to fund the incredible work done by the vets, nurses, students and volunteers. A donation to our Foundation will go directly towards saving the lives of the many sick and injured native wildlife our hospital admit every day
