

CURRUMBIN WILDLIFE HOSPITAL

CORPORATE SPONSORSHIP GUIDE

Everything you need to know to support one of the busiest wildlife hospitals in the world.

THANK YOU

FOR YOUR SUPPORT!

Currumbin Wildlife Hospital was created to secure the future of Australia's wildlife. Your support will help to fund the Currumbin Wildlife Hospital and its vital work of treating, rehabilitating and releasing sick, injured and orphaned native wildlife. The Hospital has grown to be one of the busiest wildlife hospitals in the world – a service that is provided free of charge to the community.

The skilled and experienced veterinary team, supported by volunteers, prides itself on providing the highest level of veterinary care to all their patients.

DID YOU KNOW?

Currumbin Wildlife Hospital has released **more than 140,000 native animals** back into the wild since the first vet started work in 1989.

The Wildlife Hospital treats **over 600 wild koalas** every year.

Currumbin Wildlife Hospital needs to raise over \$1.8 million annually to save Australia's wildlife, and find cures for devastating diseases threatening our native species such as the koala.

HOW YOUR SUPPORT SAVES AUSTRALIAN WILDLIFE

As one of the busiest wildlife hospitals in the world, **admitting almost 14,000 animals per year (including almost 600 Koalas in 2019)** we seem to be setting patient admittance records annually now. We are looking for socially responsible corporates who care for our wildlife and are interested in supporting the **research we are doing to save our Koalas through our Koala Chlamydia Vaccination project in conjunction with the University of Queensland.**

The Koala population in South-east QLD and Northern NSW are in steady decline, with a major cause being a bacterial infection called Chlamydia, one of the biggest threats posed to the future of the species.

Many Koala **patients admitted to Currumbin Wildlife Hospital will now be vaccinated prior to release back into the wild,** to prevent Koala Chlamydia, signifying a major milestone for the protection of the species.

This major research advancement has been made possible thanks to many organisations supporting our mission to protect the future of our native wildlife and we would love your help.

TOTAL ADMISSIONS

KOALA ADMISSIONS

The Currumbin Wildlife Hospital has seen a **20% increase in admissions in 2020.**

Our operating costs have subsequently needed to increase at the same rate to cope with increased admissions, taking us to a projected \$1.8 million in operating costs in 20/21 financial year. We rely on limited Government Funding and heavily on the support of donations and our Corporate Partners to keep our Hospital doors open to save wildlife.

WE NEED THE HELP OF CORPORATE PARTNERS LIKE YOU MORE THAN EVER

We are at a critical crossroad for our endangered wildlife and their decreasing habitat due to human impact. Koalas will be extinct by 2050 if we do not take serious steps to invest in research to ensure their future.

National Trust of Australia (Queensland) owns and operates Currumbin Wildlife Hospital as a registered Australian charity.

By supporting the Currumbin Wildlife Hospital as a Corporate Partner, you will be helping save countless lives and your generosity will help to ensure future generations have the opportunity to see our precious wildlife.

HELP US SAVE YOUR WILDLIFE

BY BECOMING A CORPORATE SPONSOR TODAY!

WHY BECOME A CORPORATE PARTNER?

The Hospital has grown to be one of the busiest wildlife hospitals in the world, admitting over 14,000 wildlife patients a year – a service that is provided free of cost to the community.

Currumbin Wildlife Hospital survives on the generosity of sponsors and donors to fund the incredible work of the vets, vet nurses, students and volunteers. A donation to the Hospital will go towards saving the lives of the many sick and injured native wildlife our Hospital admits every day.

Become a Corporate Partner and help save Australian wildlife. Your contribution is critical in helping the Currumbin Wildlife Hospital maintain the highest standard of care.

PACKAGE 1
